Subject: Dialog - Request for Information - Bid Process - Dirt Spreading Project, Part IV.

This a continuing saga of the struggle with Joel Mashburn and David Francis & Co., to extract Public Information relating to bidding irregularities associated with the David Francis Dirt Spreading Project.

Joel Mashburn continues to behave as a self-appointed Gatekeeper.

Mr. Mashburn and Don Yelton,

First, Mr. Mashburn,

Since you seem to have difficulty in understanding what Public Information I am still requesting, I have carefully consolidated all of our recent e-mail into a single file, now plopped onto www.haywoodtp.net, for your review (and everyone else in Haywood County).

See: This just keeps getting better and better... Bidding Irregularities? or

<http://haywoodtp.net/pubII/180130MoreDialogAvconBiddingIrregularities.pdf>

When we have our meeting, please include Donna Corpening, Julie Davis, Kris Boyd, all Custodians of the Information I am requesting, excluding David Francis (he is the subject of all of this). Bring anyone else you wish, maybe a couple of County Commissioners (2 Max) and some of the folks from McGill and BLE. I will be inviting Terry Ramey. I will also audio record this meeting.

Second, Mr. Yelton,

Since you are an expert with Wanda Greene (now under FBI investigation) being a Gate Keeper, does it appear to you that Joel Mashburn is attempting to do the same thing?

Mr. Miller, evidently we still are not communicating clearly. I do not plan to go back and read all of your email and try to decipher what records you still want. If you will list what records you still need and send the list to me either in writing or by email, then I will assure they are made available to you for you to review and will make you copies of any record you desire in accordance with state laws and county policies. I do not plan, nor is it incumbent on me to do so, to have anyone else present to respond to your questions. My understanding of the North Carolina Public Records Act is that the county must (1) allow inspection by any person or corporation of those government records not specifically exempted from disclosure; and (2) allow the public to copy promptly upon request and at minimal expense records of government. Let it be clearly understood that I am not denying you your right to view any public record, but I am just trying to clarify which records you still need since we have already made so many available to you.

When I have received your request clearly stating which records you want to view, then I will assemble them for you. If I have that list by 5 PM today, then I will have them ready for you to review Thursday morning at 9 o'clock.

Mr. Miller,

The meeting I scheduled with you for tomorrow is not a public meeting and is not open to the public. I have no objection to you inviting Mr. Ramey and I have no objection to you recording our conversation, but this meeting is not open to the public and I am positive there is no legal obligation for it to be open to the public. Since I assume you are familiar with the open meeting laws in NC, I am sure that you are also aware they only apply to public bodies. Based on my understanding of the law, the County Manager, or any other county employee is not considered a public body under the laws of NC so a meeting with staff is not considered a public meeting.

Mr. Miller, I was trying to expedite the response to your request, but since this does not appear to me to be your motive for the meeting I now wonder if we need to meet at all. However, I am still willing to meet with you and a limited number of others (no more than 4) if you will give me a list of the ones that will be attending with you. Also, since you will be recording the meeting, I may also decide to record our meeting and/or have notes taken. If you are unwilling to meet under these conditions, then I consider our meeting cancelled. With that being said, I will still insure that the records you requested to view will be available for you to view but no one will be available to respond to questions since I understand that the law does not require someone be available to respond to questions.

Please confirm by 5 P.M today that you are in agreement with the above.

Sincerely,
Joel Mashburn

Mr. Mashburn,

Thank you for having Terry Ramey and I into your conference room this morning.

Everything was beautifully laid out. Unfortunately, the content was somewhat lacking, as I figure I received only about 25% of the Public Records that I requested. [It would appear that David Francis personally hand-picked all this stuff]

As promised, here is a copy of my original summarized Request for Public Information (1/30/2018) with my hand written notes in RED of what I received or each line item. See attached.

Thank you for scanning and e-mailing me the material on the conference table. Terry and I will be digesting and reviewing the deficiencies and get back to you for additional information.

Mr. Mashburn and Chip, a.k.a. Leon, Killian,

This is a new Request for Public Information. During Terry and my meeting with you on 2/1/2018, you presented an MOU, a two (2) page document signed by Sara McCoy. Well, since an MOU is an agreement between two people or bodies, that information should have been included with the MOU that was presented. The MOU states that representatives from Haywood County, McGill Associates, and Steve Miller, representing Avcon USA, LLC, met on December 12, 2017 to discuss the project ...

The MOU is now on www.haywoodtp.net -

New Memorandum of Understanding (MOU) disclosed, between Sara McCoy and [who?] at Gatekeeper Mashburn meeting? WTF? Signed by McCoy 2 days after Bids submitted, changes everything. 2/1/2018. 2/2/2018...

My new Request for Public Information relating to the MOU signed by McCoy on December 13, 2017 is as follows:

- I want to see the cover page(s) of this MOU.
- Since an MOU is an agreement between 2 people or entities, I want to see the signature page for whoever signed this for the County.
- The MOU references (at the end), some enclosures:
 - Revised Drawing and Detail,
 - Sheet R-1 and R-2, dated December 13, 2017
- Who was present when this MOU was discussed with McGill and Steve Miller?
- Which Steve Miller was present? Steve Lee Miller, or Steve J. Miller?

Mr. Mashburn,

This is a new Request for Public Information. A \$6.8 Million plan was presented to county commissioners at the June 28, 2010 county commission meeting. See excerpt from Toeprints: <http://haywoodtp.net/pubTP/T100715.pdf>, where I wrote:

Jonathan Creek Park Master Plan.

A \$6.8 Million plan was presented. The main purpose of the presentation was to lay the groundwork as a step to pursue taxpayer funded state grant money. Upton suggested they do the park piecemeal, as had been done in the past, say put in one baseball field. Not feasible - grading has to be done first, along with parking lots, rest rooms, etc., etc., etc., which ultimately raise the cost of the park significantly.

Haywood County on-line documents are only available on your website www.haywoodnc.net back to 2012. Please provide a copy of the attachment describing the Jonathan Creek Park Master Plan (please scan and e-mail) presented at that meeting.

Mr. Mashburn,

Can you please acknowledge my two new Requests for Public Information.

You will be pleased to know that I have placed all of the information you provided to Terry and I at our Thursday morning meeting on my website, www.haywoodtp.net. Both Terry and I have spent a considerable amount of time digesting that information, and would you believe, that has lead to a whole new series of questions. It would simply life for everyone if I just started getting some straight answers.

I took the time to insert our last e-mail dialog between us, immediately following below this e-mail, highlighted in blue and red.

An easier method for me to explain what is going on to Haywood County Taxpayers is to change the format up a little bit, and use my newsletter format, same website, www.haywoodtp.net. Please find a new issue of Toeprints, <http://haywoodtp.net/pubTP/T180203.pdf> .

I have located the name of a fellow over at NCDOR and will be getting in touch with him Monday.

Don't forget to acknowledge my two new Requests for Public Information.

Attached is a page from the BOCC meeting of 11-06-17 where the board approved the request to repurpose the Jonathan Creek property. I used this motion as my authority to move forward within the scope of my approval authority to hire Rabbitskin to do some preparation work the access of the property. **If I did not act within the scope of my authority it was because I was unclear as to what my scope of authority was.**

I will respond to the other questions you had as soon as I can but I will be leaving at 2 today and not be back in the office until Monday.

Joel Mashburn
Interim County Manager

[**Editors Note:** WTF? **Red, bold, underlined** emphasis above is mine. What a bunch of convoluted circular logic! If Mashburn is unclear as to the scope of his authority, perhaps he is not the right guy for this position. Anyway, isn't that what we have a County Attorney for - to clarify stuff like this?]

Gatekeeper Mashburn,

Thank you for letting me know the new Haywood County office hours, M-T-W and sometimes Thursday Morning. I'll make sure Haywood County Taxpayers are aware.

Since you have proclaimed that you are the self-appointed Gate Keeper of dispensing Public Records, and you have limited working hours, does this impact the 10 day requirement the County has to respond to Requests for Public Records? Do you get to add a day and a half to that time, if someone submits a Request for Public Information from Thursday afternoon through Friday? Isn't there anyone else in Haywood County Government that can substitute for you? How about this character, David Francis, the Administrative Program Evaluator.

Anyway, thank you for having Candy e-mail me the Jonathan Creek Master Plan, my Request #18. Oh wait! She was actually the Custodian of that information. It is already on my website.

Thank you for finally acknowledging my Request #17 and Request #18, but you forgot to acknowledge my Request #20. !?! Please acknowledge my Request #20. Here, I will copy Request #20 again into this e-mail so you don't have to go back and look for it.

Gatekeeper Mashburn,

This is a new Request for Public Information. In the documentation that you supplied to Terry Ramey and I during our infamous meeting on 2/1/2018, we need to refer to your Item #6.

[David Francis Dirt Spreading Project for the James Weaver 'Kirk' Kirkpatrick III Super Duper Sports Complex. Documents provided by Haywood County Interim Gatekeeper Joel Mashburn at 2/1/2018 Meeting. Document #5. 2/1/2018. 2/2/2018...](#)

Page 1 shows a Purchase Requisition, approved by you, to Vendor #29497 (Rabbitskin Enterprises LLC) for \$8,125 worth of work. You note that this was the "best of 2 quotes).

Page 4 shows a Proposal by Rabbitskin Enterprises, LLC for that proposal, directed to Kris Boyd. There is a hand written note at the upper right hand corner of that handwritten proposal which note: "Best of 2 quotes".

Therefore, this new Request for Public Information is for the following items - i.e., I want to inspect / receive a copy of the document(s) for the following:

- The RFP (Request for Proposal document) for this work,
- Who the RFP's were sent to,
- A copy of the second response to Kris Boyd's RFP, i.e., the other bidder,
- A copy of the Drawings that were supplied to Rabbitskin so that they (the two bidders) could formulate a proposal,
- A copy of the document of the person that signed off on these drawings.

Since this Request for Public Information falls within your daily working hours as Gatekeeper, i.e., M-T-W and sometimes Thursday morning, I would like to receive an acknowledgment for both this Request #22 and my previously unacknowledged Request #20.

Gatekeeper Mashburn,

Your previous message did not request that I send without re-sending previously linked messages. No, I will not do that.

Since you seem to be having a great deal of difficulty understanding my Requests for Public Information, I will continue to add explanatory comments as necessary, so that you are crystal clear as to what I am asking for. You are not the only person on this copy list. These requests are sent purposefully to all, including previously linked messages, so that everyone can see the obstruction I am encountering with you attempting to get information that rightfully belongs to the public.

Now, will you acknowledge my requests for all outstanding requests for public information, or do you now need it in a summary form?

I have been in contact with NCDOR, and have scheduled appointments with other local and state agencies about this matter, (i.e. Avcon, Rabbitskin, Julie Davis, David Francis, McGill, etc., and you). All you need to do is your job and please send me the public information I have been requesting.
