Subject: Dialog with Becky Johnson, re: Triangle Auto, WRIT OF CERTIORARI and Sarge's.

This is a short e-mail dialog with dumb-as-a-brick reporter for The Mountaineer, **Becky Johnson**. It regards news you will never see in The Mountaineer, as it is being spiked by the Liberal Hack News Editor, **Vicki Hyatt**.

What I haven't seen is an article from the Mountaineer on the WRIT.

(I thought I would just throw this one in...)

Wha-happened? **Vicki** spike this story along with **Sarge's**?

Yes indeed, there do seem to be parallels between the two situations. I thought it would be good to pair them in some way, but it was too late to pull off, as I didn't find out about the court appeal by Doyle in time to include it in the same issue as the Triangle situation.

On another note, this week was the first time in a very long time I had been included in your email list. I actually thought you had gone dark because I hadn't seen any traffic from you in so long. I don't routinely check ToePrints without the prompts of email links, so it had fallen off my radar.

I see that you have been busy after all! Thanks for putting me back on your email list so I can keep up with it all.

In the meantime, I am making Luke a scrapbook to honor his induction into the "name in bold" club.
