Mr. Miller – You are welcome to contact me in matters related to the Town. My capacity to respond may be limited depending on the nature of your request given that attorney-client confidentiality and privilege apply in some instances and the exemptions which may exist under the public records law as a result.

Concerning your recent requests for public records, given the number of unique requests submitted and that those requests require the application of state statute to documents, a process which may or may not require legal training or experience, it seemed more efficient for me to process those requests rather than Town staff. I have not been permanently appointed as the contact person for all public records requests.

Thank you for forwarding your requests. As I said in my earlier email, I will review them as promptly as possible, but it will likely require at least a week.

Best,  
Martha
