Subject: David Francis / Kristian Owen Cooked the Books on Falsifying Data to Commissioners, Part I.

Kristian Owen, Haywood County Finance Director, ripped a page out of **Julie Davis'** play book on Cooking the Books, i.e. Falsifying Data, with the Jonathan Creek Property, a.k.a. **James Weaver "Kirk" Kirkpatrick the III** Super Duper Sports Complex, a.k.a. the **David Francis** Dirt Spreading Project.

Wow!

As you all recall -

[Flashback! The gift that keeps on giving. Cracked the Code on the Haywood County Schools Funding Formula! Julie Davis cooked the books \(i.e. falsified the calculation\). Denied School System \\$15 Million Dollars and should Resign or be Fired. 6/16/2014...](#)

Well, **David Francis** just did the same thing, and got poor ole **Kristian Owen** acting as a pawn, to falsify the data in a Request for Public Information.

To refresh your memories, please review on www.haywoodtp.net

David Francis sent me the following email, along with five (5) pdf files, indicating this was satisfying my Request for Public Information.

When the construction report was run in June, I was not aware the accounting system can only account for current and three previous years, thus an additional \$13,476.28 needs to be added for a total of \$476,198.28. Attached are the cost over the five fiscal years.

WTF?

“When the construction report was run in June, I was not aware the accounting system can only account for current and three previous years, thus an additional \$13,476.28 needs to be added for a total of \$476,198.28. Attached are the cost over the five fiscal years.”

This piece of [expletive deleted] only sent me the last five (5) years of costs for this money pit.

Wait a minute. Didn't this [expletive deleted] **David Francis**, Haywood County Program Administration Economic Development, used to be the Haywood County Tax Collector? So now, I am limited in the total cost of the county pouring dollars into this money pit with the excuse by **David Francis** and **Kristian Owen** saying, “Sorry, the accounting system can only account for current and three previous years!”

Is this the same accounting system **David Francis** used when he was Tax Collector? Yeah.

Does **David Francis** think everyone in this county are idiots?

And now, **David Francis** has dragged **Kristian Owen's** [expletive deleted] into the same pigeon hole as **Julie Davis**, cooking the books and falsifying data. **Kristian Owen** is now up to her [expletive deleted] in alligators.

Both should be fired!

The following is a follow up Request for Public Information, before I start taking this to a higher lever.

It clearly shows that the property was purchased by the county on 8/31/2007, notwithstanding the dowry that Chip, a.k.a. Leon Killian the III messed up on and had to be paid for (by the county). So Francis telling me that the county accounting system can only account for the current and three previous years is laughable. Please provide information for the following years...
