Subject: Rob Hites throws Waynesville Police Chief, David Adams, under the Bus.

WTF?

Remember back at the last Aldermen Meeting of 9/13/2022, where **Rob Hites** made an announcement at the beginning of the meeting threatening to start doing a weapons search of meeting attendees at future Aldermen meetings, because Aldermen were feeling too much heat during the public comment sessions? This was a blatant form of intimidation and selective enforcement. If you have trouble remembering, listen to the audio of that meeting, found on www.haywoodtp.net

[Audio Recording of Town of Waynesville Aldermen Meeting of 9/13/2022, the one where Rob Hites threatens to start doing a weapons search of attendees at future Aldermen meetings, and where Anthony Sutton goes berserk. 9/13/2022. 9/30/2022...](#)

Well, guess what? **Rob Hites** has attempted to cover his tracks by pinning the blame for this idiotic idea on Waynesville Police Chief David Adams in the official minutes of that meeting.

[**Editor's Note:** No wonder Tyler Trantham is no longer here.]

The following is from the minutes of that meeting in the new Aldermen Meeting agenda, also found on www.haywoodtp.net

[Agenda for the October 11, 2022 Waynesville Board of Aldermen meeting which will be held at 6:00 pm in the Town Hall Board room located at 9 South Main Street, Waynesville. 10/4/2022...](#)

“ Town Manager **Rob Hites** announced that due to the recent threats that have been made to the elected officials, and Public Service employees, the Police feels it necessary to follow the lead of Haywood County and begin to use metal detection for people entering the Board Room. He reminded everyone that it is nothing personal, but it is for the protection of everyone in attendance.”

WTF?

That is not what happened [re: audio of the meeting], yet **Rob Hites** gave several interviews about this new procedure to local media, including WLOS.

Well, while **Rob Hites** was telling everyone in the room they were taking the lead of Haywood County Commissioners and using metal detection for county commission meetings, I was minding my own business, sitting in the back of the room, shaking my head “no”, when Chief David Adams notice my incredulousness of this guy **Hites**. Chief Adams got up from his chair, walked over to me (which he never does), with a questioning look on his face. I explained that **Mark Swanger** (ex FBI guy and county commissioner) installed a metal detector at the old courthouse, but that was removed years ago, and county commissioners no longer screen anyone going into the old courthouse. Chief Adams said he would investigate that.

Waynesville Police Chief David Adams looked totally surprised at **Rob Hites** announcement. Evidently, he was as surprised as anyone at **Rob Hites** stupid announcement. Subsequently, Chief Adams indicated he would let people know in advance if and when they would start wanding people.

A litany of questions popped up!

- Will this operation be conducted by the Waynesville Police Department?
- Will metal detection be applied to everyone entering the Police Department (plus Development Services on the first floor), or just those people entering the Aldermen meeting room on only evenings there are Aldermen Meetings?
- I carry a pocket knife. Will that be confiscated, or do I have to go to my vehicle and place the knife in my car while I go back to attend the meeting?
- Will women who carry purses be required to dump the contents?
- Will there be a list of items that are deemed to be considered a weapon, i.e., my pocket knife?
- Any government search or seizure that is found to be unreasonable violates the Fourth Amendment.

Well, let's go to the root of the problem. One of two things are happening -

- Aldermen are upset they are getting blasted during recent Public Comment Sessions, or
- Aldermen are fearful of their lives because they were named in a writ, along many other public officials in Haywood County by the People's Bureau of Investigation.

This writ business came to light in an article by **Cory Vaillancourt** (who is now in **bold**) -

'Phony writ from sham court offers bounties for national, state and local lawmakers', Written by **Cory Vaillancourt**, Tuesday, August 16, 2022

[**Editor's Note:** Legend: If any name is in **bold**, it can't be a good thing.]

In his piece, **Cory Vaillancourt** provided a link to the Official Website of THE PEOPLE'S BUREAU OF INVESTIGATION, <https://thepbi.us/rco-directory/>, the perpetrator of these writ's.

Being inquisitive, I jumped over to that website, and did a search of all people being served that lived in North Carolina. After filtering out people that did not live in Haywood County, I came up with the following list of people.

[**Editor's Note:** I categorized these people into two (2) groups, as I am familiar with most of these people. One group are people that are on www.haywoodtp.net, and appear in **bold**, with the other group of people I who are not in bold.]

Here are the results -

Bold

Chuck Dickson (x2)
Danny Davis

Notes:

- Some names are in upper case. This is how they were represented in the data base.
- (x2), (x3), etc., means they were duplicated in the data base that number of times.
- All Town of Waynesville Aldermen have been named, and coincidentally, they are all in **bold**.

So, is **Rob Hites** going to authorize and command the Waynesville Police Department to start providing metal detection security for everyone on these lists, or only those people attending Aldermen meetings?

Let's see what happens at the next Aldermen Meeting.
