**Subject:** VERY INTERESTING THINGS HAPPENING IN HAYWOOD COUNTY, Eddie Cabe Dialog.

This is a short email dialog with Eddie Cabe, re: Haywood County Commission meeting of 3/20/2023. A single person made a public comment, chastising most of the county commissioners (Terry Ramey excluded), and **Tommy Long** [M] and **Kevin "Adjudication" Ensley** [RINO] went on a tear during the constituent comment portion of the meeting. This was after propping up **David Francis**, pick a title, for nearly an hour.

Everyone is encouraged to view the video of this meeting.

Wonder What's Happening to our County??

You can almost smell the fear in the air.....

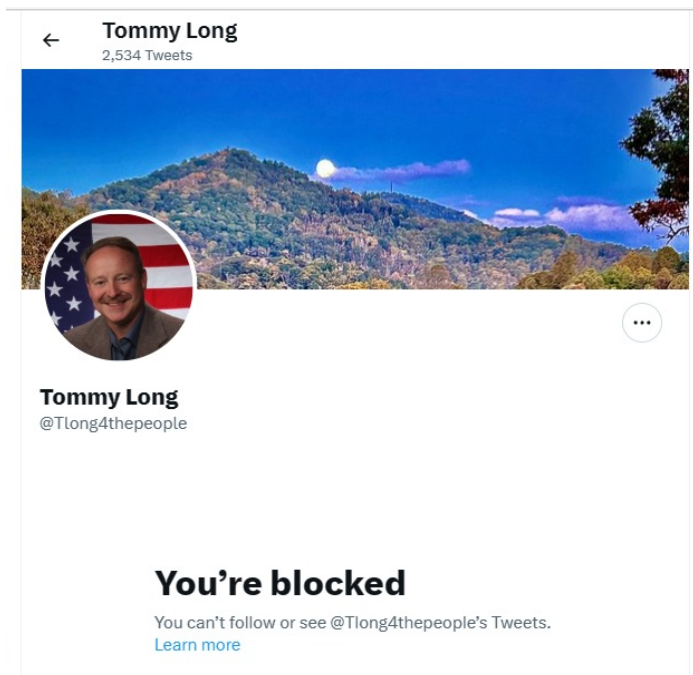

I guess "We The People" are not supposed to ask Mr. Tommy Long Questions about the J-Creek Project, the New Jail, or the county's money woes .....

If you don't like what your Haywood County Citizens Ask Just Block them .... This seems to be the trend in Haywood County Government.

Is that how you understand the Constitution Tommy???

I guess you think the Citizens of Haywood Work for you,, and you are the KING  
shame shame shame

Maybe you can discuss me with my in-laws down at Bethel Baptist Church Again since that worked so well for you last time.

Haywood County Commissioners Meeting 3-20-2023

A MUST SEE , the first speaker is SPOT ON

But the NEXT 1 hour and 50 minutes is sad boring and predictable.

But at 1:50;00 You can see Tommy Long in all his Self-righteous Splendor, as he talks down a Common citizen

And Again a Haywood County Commissioner Asks a Haywood County Citizen to move out of the county

SADLY, THIS HAS BECOME THE NORM IN HAYWOOD

Eddie,

I concur.

I had just made a decision to do one of the things I hate to do most - that is, transcribe Tommy Long's, Kevin "Adjudication" Ensley's and Jennifer Best's comments made in the constituent concerns portion of the 3/20/2023 county commission meeting. Tommy Long is a sick son-of-a-bitch. The only other county commissioner that told a Haywood County Citizen to take a hike out of the county in my memory was James Weaver "Kirk" Kirkpatrick the III, and Haywood County Voters threw him out of office at the last election.

During another portion of the meeting, Kris Boyd requested the bid of \$28.1 Million Dollars from Hickory Construction Company for the New Detention Center be refused. You know, one of the principle reasons for adding cells to the current detention center was that it filled frequently, and it cost the county \$\$ to house them in other counties. I never got a handle on exactly what those costs were. That could be used as justification for the expansion, i.e., ROI (Return On Investment). A decent ROI is from 3-4 years, the amount of time you start to get a return on your investment made.

So, Vicki Hyatt quoted Bryant Morehead that when asked how much was this last year, Morehead responded with \$33,000, + travel expenses/time. WTF?

Let's compute ROI based on \$33K per year versus the cost of the new expansion of \$28.1M.

$(\$28.1M)/(\$33K/year) = 852 \text{ years}$

WTF?

Eddie, you and I, along with everyone else would have turned to dust.

Let's suppose it costs the Sheriff's Office \$1,000,000 / year to house detainees outside the county. (That is a sizable portion of the Sheriff's budget). Let's compute ROI.

$(\$28.1M)/(\$1,000,000/year) = 28 \text{ years}$ . Eddie, I think both of us will still be dust at that point.

So, Eddie, I think I will post our little email exchange here. Look for it shortly on [www.haywoodtp.net](http://www.haywoodtp.net) .

Eddie,

I would encourage our NC State Treasurer, Dale Folwell ([folwell@nctreasurer.com](mailto:folwell@nctreasurer.com)) to make the trip to sleepy little Haywood County. He will be in for a treat!
